Dear Students, Staff, and Faculty,

In the light of the rapidly evolving situation concerning the COVID-19 pandemic, we are writing to inform our undergraduate and graduate students that expectations for continued presence on campus are being waived for the remainder of the Winter 2020 Session (semester and April exam period). We realize at this time that many students are faced with difficult decisions about returning home, particularly those who have to deal with restrictions on international travel, and we want to be as flexible and understanding as possible.

Additional information will follow very soon for instructors and students concerning the completion of the term and evaluation of course work and exams, including recitals and juries. Students registered with Accessibility Services should make contact there to receive any required accommodations and support.

We thank everyone for their ongoing patience and support in working together through the current challenges.

With Best Regards,

Don
