Posting Date: August 10, 2021

Course Number and Name: MUS3630H/TMU411H1 Video Game Composition

Course Description: Working in music and sound for video games means not only composing music or designing sounds but building and maintaining complex interactive systems that take players' input and translate it into sonic feedback. This course provides students with the opportunity to create their own interactive music and sound systems for video games, acquiring the relevant technical skills and the experience of team-based video game development.

Class Schedule: Mondays 3-4pm
September 2021 - April 2022

Salary: \$8,489.67

Estimated Course Enrollment: 20

TA support: No

Qualifications: Degree in music composition or related field. Extensive professional experience in sound design for audiovisual media, including music and sound for video games. Expert knowledge of relevant current software, including familiarity with audio asset implementation and in-game audio engines Unity and Wwise. Some college/university teaching experience desirable, but not required.

Duties: Define course objectives; prepare course materials; provide clear guidelines on course requirements and regulations; teach classes as scheduled; administer and evaluate student assignments; prepare and submit final grade in accordance with policy. This course involves a collaboration with students in video game development in the Department of Computer Science, and an integral part of the course is to support music students in this collaboration. Maintain reasonable hours of student consultation outside scheduled class hours.
